
The Adventure in India Begins!

Travel up and down India in the latest Ticket to Ride expansion!

The India Expansion has arrived, and it brings a whole new experience for you!

Meet Bhaskar Singh, a little boy with huge dreams of becoming a world-famous poet. Travel across India with him, searching for each city's most iconic and inspirational landmarks. Then, head out with Dr Aanandi Johri, a travelling doctor who moves from place to place providing medical support for those in need.

Travel in utter luxury in the new locomotive, the Maharaja's Chariot, particularly when coupled with the new Maharani's Palace carriage! Alternatively, fuel your journey with prestige with the Star Royale locomotive, and add a touch of elegance with the Lotus Wagon carriage.

Embrace new ways of strategising on the India map with the elusive Mandala Bonus. To earn these useful points, complete a ticket by creating multiple routes to the two locations it asks for. The more tickets you complete this way, the more bonus points you'll earn!

Head off on the journey of a lifetime every time you play! The India Expansion is available now – what are you waiting for?
